

Hi Chialin, Frank and Lisa:

I have now completed my review of the courses that Karrie sent to us (see attached Excel file). I have identified a total of 99 courses that need to be put on the course inactivation list (see list below). Please note that courses offered after Fall 2017, and not cancelled were excluded from the analysis.

The discussion on the implementation of this process happened back in September and we have not discussed the next steps at the District Curriculum Committee. I am afraid that if we do not move forward soon, we will not be able to implement it for the next catalog.

Let me know if you have any questions.

Thanks!
