SERVICES

Technology
Students can check out WiFi hotspots, laptops, Chromebooks, and graphing calculators.

Reserves
Request textbooks for your courses for use either in the library or at home (depending on funding and availability).

Printing
Available anywhere in the Library, we use WEPA stations for printing. Students get $5 free printing this academic year.

High-Speed Book Scanner
Need just a paragraph or a few pages? We have a free high-speed book scanner available for student use.

RESEARCH AND LIBRARIAN HELP

Have a research project you need reliable, college-level, information for? Need to cite your sources in MLA, APA, Chicago, or CSE but not sure how? We are here to help!
Faculty: Schedule an in-person or online library session for your class
Students: Make an in-person or Zoom appointment with a librarian, hat with a librarian online, text your question (650) 535-8398, drop in anytime we are open and get assistance!

Library Workshops

Zoom and In-Person

https://canadacollege.libcal.com/calendar

MLA Workshops *ZOOM*

This 30 minute workshop covering the basics for MLA in-text citations and reference lists. Leave with tips, tricks, and tools that will help you nail your MLA!

APA Workshops *ZOOM*

This 30 minute workshop covering the basics for APA in-text citations and reference lists. Leave with tips, tricks, and tools that will help you nail your APA!

General Citation Help *IN-PERSON OR ZOOM*

Would you like a librarian to look over your Works Cited or Reference pages before you turn in your paper? No appointment needed; get help with any citation style!

Easy Citations with MyBib *IN-PERSON AND ZOOM*

If you have a research paper or project this workshop will save you time and possibly money! Did you know you can cite almost anything in any citation style easily and for free? The Librarian will show you how to use MyBib to organize citations, creat Works Cited/References, and correctly format in-text citations.

Google Slides *IN-PERSON*

Do you have a presentation coming up for an assignment? Join a librarian for an information session to learn the basics of creating a Google Slides presentation. Learn to create a simple presentation, how to format and edit the slides, how to work with text and images, and how to present a slideshow. This is an inteactive session on creating and designing your presentations.

WE HAVE STUDY ROOMS FOR STUDENTS TOO!
